

Pfizer (Thailand) Ltd.

Pfizer has grown to become a multinational company with ten R&D centers and over 100,000 employees in six continents across the world.

More than 165 years has passed since Pfizer was founded. Yet, Pfizer's philosophy, passion and determination have never changed: through the centuries, we have remained in the pharmaceutical business that produces a life necessity. Our aim is to make the best medicines that the world needs to treat and prevent illnesses.

In Thailand, Pfizer has been with Thai people for over 60 years. As part of the Thai society, we have engaged in various charitable and educational programs. While Pfizer (Thailand) Ltd. offers products that save and prolong lives, Pfizer Thailand Foundation offers hope and opportunities to pursue one's dream, to make a difference, and to be a giver to society. For example, we grant scholarships to medical students to give them the necessary tools to make their dreams come true and become givers to society in their chosen professions.

Breakthroughs that change patients' lives
