

Thai Otsuka Pharmaceutical Co., Ltd

Thai Otsuka Pharmaceutical Co., Ltd. was officially established on December 7, 1973, making it the first joint venture outside Japan of Otsuka Group.

For over 40 years until today, Thai Otsuka Pharmaceutical Co., Ltd, has still adhered to the first concept when it was established for the better health of Thai people. We promise to innovate, develop and improve in order to obtain the quality products and enhance the better quality of life for Thai people forever.

We at Thai Otsuka, are dedicated to research what patients and healthcare professionals need in Thailand, So that we can present a product that has been designed and developed with innovation and ready to respond to the market's needs appropriately.

Our products; Quality is the life of our factory. Our packing also indicates quality. We produce and sell as if we are the customers. Medical device products: In addition to medications and medical foods, we also import medical equipment that meet international standards, as an alternative for Thai patients to receive better quality treatment
