

BIOTRONIK (THAILAND) CO.LTD.

Your Health Deserves the Highest Quality

At BIOTRONIK, patient well-being is our top priority and has been for 60 years. BIOTRONIK is a leading global medical technology company with products and services that save and improve the lives of millions suffering from heart and blood vessel diseases as well as chronic pain. Driven by a purpose to perfectly match technology with the human body, we are dedicated innovators who develop trusted cardiovascular, endovascular and neuromodulation solutions.

BIOTRONIK is headquartered in Berlin, Germany, and is represented in over 100 countries.

Cardiac Rhythm Management

Cardiac rhythm management focuses on innovative therapies and technologies that help the human heart beat optimally. Our comprehensive portfolio includes pacemakers, implantable defibrillators and leads, as well as external remote monitoring systems for patients with cardiac arrhythmias.

Electrophysiology

Our catheters offer state-of-the-art solutions that diagnose and treat patients with cardiac arrhythmias.

Vascular Intervention

We offer a comprehensive portfolio of stents, balloon catheters and guide wires to treat patients suffering from vascular diseases of the heart or lower limbs.
